

warble

Global Bass

Based in San Francisco Bay Area

warble (oshan anand) has spent thirty years being shaped by sound, wild and wondrous signal shapes cutting, layering, and bending him, changing the way he moved. His style pulls from dub's depth, folk tradition's memory, and the open architecture of post-genre electronics, stitching them together into something designed to mutate dancers, opening new angles in the body and trajectories of escape from the mind.

PAST EVENTS

Underdog Estates · The Birdhouse · 1759 Broadway · Frontier Tower · Lovely Day Oakland · On Broadway at Mabuhay Gardens · The Loom · The Sphinx Gate
